MEMORANDUM FOR: Deputy Director for Administration  
FROM: [REDACTED]  
Director of Data Processing  
SUBJECT: ODP Report for Week Ending 4 March 1983

STAT

1. SAFE Early Capability

All of the DIA SAFE system equipment has been installed, tested by Engineering Division, and turned over to Systems Programming Division for operating system installation.

[REDACTED] travelled to Offut AFB for discussions on 1 March with SAC concerning mutual areas of interest on the Intelligence Data Handling System 80 and SAFE.

STAT

Live DIA message traffic will be available for testing in the DIA system on 9 March.

2. External Procurement

ODP concurred on an Office of Global Issues procurement action for commercial timesharing services. Access to a VM-type system was required for an uncleared detailee to work on an unclassified project.

3. Support to DCI

GRAPHICS (CIA Computer Graphics Support). A demonstration of CUECHART was given to [REDACTED] John Balch of NIESO on 25 February. The Director of NIESO is interested in a quick response method of creating briefing-quality graphics. CUECHART appears to meet his needs.

received to add files and procedures to the COMEX data base to provide intelligence information to appropriate U.S. Government departments and agencies about the transfer of technology to Communist countries.

5. Support to Office of the Comptroller

BRS (Budget Ranking System). The new function, RENAME, has been added to the BRS system. At this point, all required software has been completed and turned over to the customer for final acceptance testing. We expect to receive requests for cosmetic changes to the reports throughout the next week. The project should be closed by 7 March.

6. Significant Events During Coming Week

None.
